

byōm™

remastered

Optimal Health From Within

byōm™, pronounced [biome], is the only liquid probiotic currently available on the market that also helps your body optimize itself in other key areas with stacked benefits.

Its biohacking formula is a unique blend packed with ingredients that work to support your healthy gut bacteria and promote optimal digestive health.

In addition to providing **20 billion CFUs** from **9 different strains of healthy bacteria**, **byōm™** helps to put your body in an **alkaline state**. It also provides cellular hydration at the same time, thanks to **ionic trace minerals** in our harmonizing blend.

This helps you stay healthy, happy, and hydrated while you slay your day!

As unique as it is powerful, **byōm™** is another delightful tasting product with **stacked benefits** that you've come to expect from **Velovita**. Enjoy!

Helps Balance the pH Levels in Your Body†

Improves Digestive Health†

Helps Boost Cellular Hydration†

May Help Support a Healthy Immune System†

May Help the Body Fight Harmful Bacteria†

Our highly effective, proprietary formula for **byōm™** includes enzyme and probiotic blends, trace mineral complex, and more! All these are **carefully selected ingredients** in our one-of-a-kind process to provide your digestive system, and body, with maximum support for **optimal digestive health**.

9 strains of bacteria + over 20 billion CFUs = 1 healthy, supportive microbiome.

A **supportive** and **healthy microbiome** means:

- A healthier central nervous system and brain function.
- A stronger digestive system capable of handling more diverse diets.
- A more efficient bodily response to infections.

Every snap of **byōm™** helps put your body in an **alkaline state** that:

Supports Proper Cell Functions

Promotes Better Sleep

Increases Alertness and Mental Sharpness

A stronger body, supported with **byōm™**!

byōm™ supports your gut health by reinforcing the billions of helpful bacteria that coexist with the cells inside of our bodies.

Why **byōm™** Remastered?

Start your day off with a snap of **byōm™** to **rebalance** and **nourish** your gut. You'll get more out of every meal you eat, too, since the proteolytic enzymes help break down foods, an essential process for releasing nutrients. By the end of week 1, you may start seeing improvements in your digestive health and bowel patterns. The benefits only continue to multiply over time.

A Healthy Outside Starts Inside

Designed to help you feel better inside and out, **byōm™** influences more than just digestive health. It also supports:

- Oral Health.
- Skin Health.
- Lung Health.
- Mental Health.
- Stomach Health.

Utilize **byōm™** to the fullest

WITH JUST A FEW SIMPLE STEPS:

Take it at least once daily, preferably in the morning. You can take **byōm™** directly or add **8-10 oz.** of water or milk. For optimal results, use 30 minutes prior to a meal. Store at room temperature or below to preserve freshness.

Use in conjunction with **plōs® Thermo** and **zlēm®** for maximum digestive benefits.

What Are Probiotics?

Probiotics are microorganisms (bacteria) that **benefit your health**, especially your digestive system. They can be found in foods like yogurt and dietary supplements, subverting the long-accepted notion that bacteria and other microorganisms are tainted "germs." Most bacteria are helpful – vital even. Some help digest food, eliminate disease-inducing cells or even help strengthen our **immune system**.

A Community of True Little Helpers

The human microbiome is the community of microorganisms (bacteria, fungi, and viruses) that live in a particular part of your body, such as the mouth, skin, or gastrointestinal tract. These resident microorganisms are vibrant and change in response to environmental factors and their host's lifestyle, such as diet, exercise, medication, and other elements.

Did you Know?

"A huge proportion of your immune system is actually in your GI tract."

—Johns Hopkins University School of Medicine

"The latest research shows that probiotics may offer benefits against a range of health conditions, including allergies, arthritis, asthma, cancer, depression, heart disease, and gastrointestinal (GI) problems. Probiotics may even help with weight loss!"

—Harvard Medical School
